Library advocacy is more important than ever!

We know that our users depend on Drayton Valley Libraries for services, programs and resources. We also know that stories are a powerful communication tool to help government decide on how best to provide funding support in sustaining public services.

We invite you to write your story in a letter that describes how you use the Library or how our services at either the Main Branch or Rotary Children's Library have helped you achieve a goal.

Your story should include as much details on the impact the library has had on you, your family, your community. We also welcome your comments on what impact you would experience if government support funding is cut. Be specific! You do not have to include your name; however, please indicate where you live: Town, Brazeau County, Parkland County or other community.

Ex.

"I am a resident of Brazeau County and my family relies on the public library for its services, programs and resources.

My husband and I lost our jobs due to the current downturn in local economy and cut so many extras that we started looking for inexpensive things for our family to do. When we found the public library has free programs it was a God-send. We take our kids to Rotary Children's Library for Smart Play and are looking forward to the upcoming Summer Reading program. My husband and I head to the Main Branch Library for Date-night movies: free Movie & popcorn, Wow!! We are getting to know more people and now don't feel so isolated.

While at the Library for a movie night, we found out that the public computers are also free, AND that the Library allows you to print off 10 copies of your resume for free. We don't have good internet service at home and we don't own a printer. My husband used the library computers for job searching and has an interview lined up.

Without the Library we would still be stuck at home with limited options.

Sincerely,

Please submit your letter to the service desk staff at either of our libraries **before July 31, 2019**. We will forward copies of all letters that we receive to our Municipal and Provincial governments.

Let's get Drayton Valley talking about the importance of libraries in our community!
